Tobacco product information											Tobacco ingredient information (include the total number of ingredients added in brackets)																																																																					
Name of Manufacturer or Importer	Country	Year	Product type	Brand name	Brand features	For cigarettes			Product unit weight	Tobacco weight	Category	Ingredient name	Ingredient quantity	Ingredient function																																																																		
						Tar yield	Nicotine yield	CO yield																																																																								
TDR d.o.o Obala V.Nazora 1, Rovinj, Croatia	BULGARIA BG	2013	CIGARETTE	RONHILL WHITE	20 filter King size cigarettes; Pillow pack	7 (TDR chem. lab.)	0,6 (TDR chem. lab.)	7 (TDR chem. lab.)	935 ± 20	685 ± 20	1. tobacco	water	114,78	12. Humectant / 16 Solvent																																																																		
											2. cigarette paper	Propylene glycol	30,06	12.Humectant																																																																		
												Invert sugar	29,18	11. Flavour																																																																		
												Citric acid	5,30	11. Flavour																																																																		
												Mixed fruit concentrate	5,30	11. Flavour																																																																		
												Ethyl alcohol	3,09	16. Solvent																																																																		
												Cocoa and cocoa products	1,32	11. Flavour																																																																		
												Licorice root extract	0,89	11. Flavour																																																																		
												Natural & natural identical flavours	0,62	11. Flavour																																																																		
																						3. sideseam adhesive	Ethylene vinyl acetate copolymer	2,634	2. Adhesive																																																							
																							Polyvinyl acetate	1,76	2. Adhesive																																																							
																							vinyl alcohol / vinyl acetate copolimer	0,05	17.Sizing agent																																																							
																																		4. inks used on cigarette paper	-	-	-																																											
																																		5. filtration material	Cellulose acetate	136,25	7.Fibre																																											
																																			Glycerol triacetate	11	13. Plasticizer																																											
																																			Titanium dioxide	1,88	22. other																																											
																																													6. filter overwrap	cellulose	27,3																																	
																																														Calcium carbonate	3,52	8. Filler																																
																																														Polyvinyl alcohol	1,17	22 other																																
																																																								7. filter adhesive	Ethylene vinyl acetate copolymer	23,44	2. Adhesive																					
																																																									Polyvinyl acetate	2,34	2. Adhesive																					
																																																									Paraffin	0,93	2. Adhesive																					
																																																									vinyl alcohol / vinyl acetate copolimer	0,586	17.Sizing agent																					
																																																																			8. tipping paper and tipping paper inks	Glycerol triacetate	0,469	3 binder										
																																																																				cellulose	25,47											
																																																																				Titanium dioxide	10,19	22 other										
																																																																				Calcium carbonate	6,11	8 filler										
																																																																				Kaolin	4,07	8 filler										
																																																																			Pigment iron oxide yellow	1,71	5 colour											
talc	1,02	8 filler																																																																														
TDR d.o.o Obala V.Nazora 1, Rovinj, Croatia	BULGARIA BG	2013	CIGARETTE	RONHILL SILK WHITE	20 filter King size cigarettes; Pillow pack	4 (TDR chem. lab.)	0,4 (TDR chem. lab.)	5 (TDR chem. lab.)	950 ± 20	685 ± 20																																																									1. tobacco	water	124,15	12. Humectant / 16 Solvent										

												Propylene glycol	32,47	12.Humectant
												Invert sugar	31,52	11. Flavour
												Citric acid	5,73	11. Flavour
												Mixed fruit concentrate	5,73	11. Flavour
												Ethyl alcohol	3,34	16. Solvent
